

19 APRIL 2011 PF-NL063

→ TVR S

This week, we are please to introduce a new range of bushes for the [TVR S](#)

A very popular car which is now being restored and cherished in big numbers.

Fortunately for us the bushes are a weak point. With Powerflex the chassis can be returned to better than new

condition. The catalogue page is [here](#) and these new parts are now in stock.

→ And finally

If you know motorcycles then you know that Honda Goldwings are heavy, slow, covered in chrome and ridden by bald men with goaty beards! (You know who you are).

Think again.

For the motorcycle fans or anyone who appreciates speed [here](#) is one for you.

This is the very famous Highway 129 in North Carolina.

Whilst the Wanda Goldwing rider is brilliant [these Harley guys](#) are not! (Skip to 30 seconds in)

With any sort of performance driving or riding the saying is "look where you want to go" I guess these two wanted to have a look at the undergrowth.
